 3. Methodology
 4. Findings by axis
 5. Maturity matrix
 6. Recommendations
 7. Roadmap
- Appendix A — Appendix

1. Executive summary

Key message

Delivery confidence can recover within four weeks when capacity and blockers are reviewed weekly.

Measure	Current	Target
OEE	76.2%	78.0%
Critical milestones protected	5	7

Table 1

2. Context and scope

The review covers Line 3 delivery, capacity and weekly steering evidence.

3. Methodology

Review milestones and validate capacity by person and week.

4. Findings by axis

Delivery risk is concentrated in two work cells; three blockers need sponsor decisions.

5. Maturity matrix

Axis	Current	Target
Delivery governance	2.8	3.5
Data discipline	3.1	3.8

Table 2

6. Recommendations

- Protect the seven customer milestones.
- Review capacity constraints every Friday.

7. Roadmap

Initiative	Owner	Timing
MES Line 3 pilot	COO	Weeks 1–4
Capacity review	PMO	Weekly
Evidence readback	Quality Lead	Week 2

Table 3

Appendix A – Appendix

Decision log

The steering team approved the four-week recovery sequence.
