

DIGITAL MATURITY ASSESSMENT REPORT

DBR77

-
- DRD Assessment - Jul 12, 2026
 - Methodology: DRD 7 axes / 39 areas (legacy-store assessment — no method-pack version pinned)
 - Issued: 13 September 2026
 - Scope: 7 axes, 39 areas

Agenda

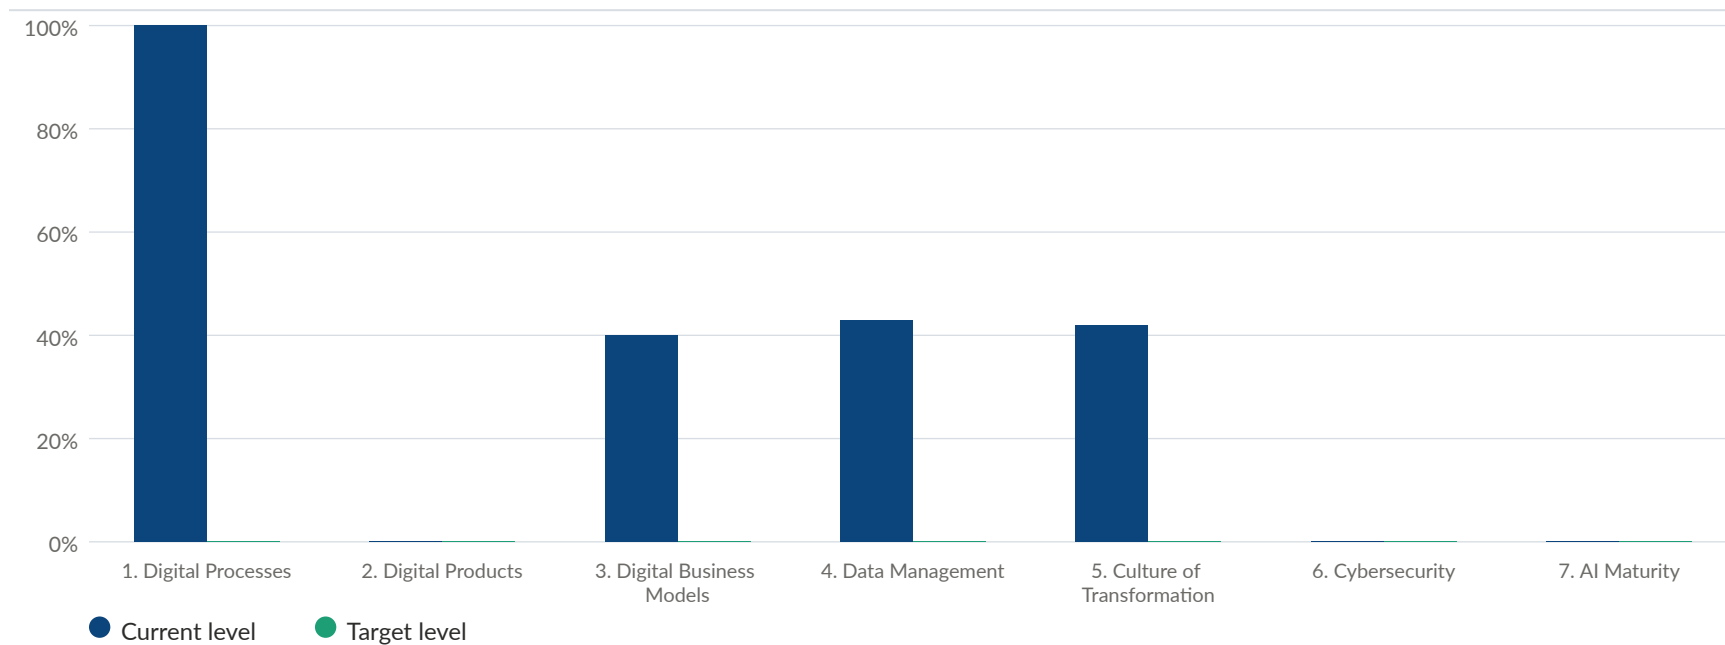

- Assessment context and data source
- Overall result – seven-axis profile
- Axis by axis: what was measured and where the gap is
- Gap register – areas with the largest distance
- Priorities arising from the gaps
- Next steps

Where this result comes from

Field	Value
Organization	DBR77
Subject of assessment	DRD Assessment - Jul 12, 2026
Business profile	No data in the assessment
Employment	No data in the assessment
Assessment period	12 July 2026
Assessor	Piotr Wiśniewski
Result source	Assessment run in the DRD workshop – levels declared, no attached evidence
Coverage	5 of 39 areas have a recorded level

OVERALL RESULT

Maturity profile across seven axes

Critical gaps (distance of at least 3 levels): 0 of 0 measured areas.

Digital Processes

100% → —

Current level against target; 1 of 9 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

Digital Products

Current level against target; 0 of 5 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

Digital Business Models

40% → —

Current level against target; 1 of 5 areas assessed.

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

Data Management

43% → —

Current level against target; 1 of 5 areas assessed.

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

No measured gaps on this axis.

Culture of Transformation

42% → —

Current level against target; 2 of 5 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

Cybersecurity

Current level against target; 0 of 5 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

AI Maturity

Current level against target; 0 of 5 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

Areas with the largest gap

Area	Axis	Gap	Target level
------	------	-----	--------------

The register covers 0 areas with a measured gap; 0 largest shown.

What the gap distribution shows

Priority	Number of areas
----------	-----------------

- Direction: no data in the assessment
- Priority: no data in the assessment
- Per-area recommendations were not recorded in this assessment — priority follows solely from gap size.

From result to action

- Confirm the levels in 0 areas with a gap of at least 3 and add supporting evidence.
- Fill in 34 areas with no recorded level, or deliberately skip them with a stated reason.
- Assign an owner to every area with critical priority.
- Set a time horizon — the assessment does not contain one and none is added here.
- Approve the report and move the gaps into the initiative register.
