

DIGITAL MATURITY ASSESSMENT REPORT

Northwind Manufacturing Ltd.

-
- Operational Excellence Programme
 - Methodology: DRD 7 axes / 39 areas (legacy-store assessment — no method-pack version pinned)
 - Issued: 16 September 2026
 - Scope: 7 axes, 39 areas

Agenda

- Assessment context and data source
- Overall result – seven-axis profile
- Axis by axis: what was measured and where the gap is
- Gap register – areas with the largest distance
- Priorities arising from the gaps
- Next steps

Where this result comes from

Field	Value
Organization	Northwind Manufacturing Ltd.
Subject of assessment	Operational Excellence Programme
Business profile	Manufacturing
Employment	340 employees
Assessment period	7 August 2026
Assessor	James Whitfield
Result source	Assessment run in the DRD workshop – levels declared, no attached evidence
Coverage	0 of 39 areas have a recorded level

Maturity profile across seven axes

Critical gaps (distance of at least 3 levels): 0 of 0 measured areas.

Digital Processes

Current level against target; 0 of 9 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

Digital Products

Current level against target; 0 of 5 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

Digital Business Models

Current level against target; 0 of 5 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

Data Management

Current level against target; 0 of 5 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

Culture of Transformation

Current level against target; 0 of 5 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

Cybersecurity

Current level against target; 0 of 5 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

AI Maturity

Current level against target; 0 of 5 areas assessed.

Area	Cur.	Tgt.	Gap
No measured areas	—	—	—

- Largest gap on this axis: —
- Areas with a gap of at least 3: 0

No measured gaps on this axis.

Areas with the largest gap

Area	Axis	Gap	Target level
------	------	-----	--------------

The register covers 0 areas with a measured gap; 0 largest shown.

What the gap distribution shows

Priority	Number of areas
----------	-----------------

- Direction: no data in the assessment
- Priority: no data in the assessment
- Per-area recommendations were not recorded in this assessment — priority follows solely from gap size.

From result to action

- Confirm the levels in 0 areas with a gap of at least 3 and add supporting evidence.
- Fill in 39 areas with no recorded level, or deliberately skip them with a stated reason.
- Assign an owner to every area with critical priority.
- Set a time horizon — the assessment does not contain one and none is added here.
- Approve the report and move the gaps into the initiative register.
